

## INSTANT RETURN ON INVESTMENT – GET A FREE TRIAL!

Route optimisation has been something delivery companies have been waiting for, for many years, but until recently it has been a complex process requiring IT resources and system integration. **GeoSmart is delighted to introduce Route<sup>2</sup>GO Lite**, which is a user friendly application, designed around calculating the best order for vehicles having a set of jobs to do on each trip. The benefits of this solution are to reduce the distance the vehicle has to travel, vehicle running costs and driving time. We believe our product can make a big difference to your business and bring instant Return On Investment.

*Route<sup>2</sup>GO Lite by GeoSmart\* can help you:*

1. Reduce vehicle operating and maintenance costs
2. Get more jobs done in a day
3. Increase business profitability
4. Improve planning
5. Better customer service

\*No development or programming required

**Contact us now and get a FREE TRIAL.** Give us 5 actual historic runs in the order they were driven and we will tell you how you can save.
